Existing Drainage Issues

Funding

- **Grants:**
 - Initial grant from Hamilton County Storm Water District = \$75,000
 - Supplemental grant funding from Hamilton County Storm Water District = \$110,000
- **Road Levy Dollars:**
 - Applied towards construction cost = \$136,000

Project Overview

- **Goals of this Project:**
 - **Install the proper size infrastructure for storm water drainage associated with McKelvey Road.**
 - **Eliminate flooding hazards caused by collapsed storm sewer system.**
 - **Keep all new infrastructure within the Right-of-Way to prevent additional project costs associated with purchasing storm sewer easements on private property.**
- **Updated Project Information can always be found @ www.springfieldtwp.org/RoadProjects**

Project Overview

Right of Entry Forms

- **Intended purpose?**
- **Potential negative impacts to property owners?**
- **Length of legal agreement?**

Questions and Review of Construction Plans
