Dear Springfield Township Resident:

I am writing to inform you that the asphalt contractor has notified us that they will begin working on the asphalt portion of the project during the week of May 2nd. The paving contractor for this project is the John R Jurgenson Company.

This work will begin with grinding off the existing asphalt surface course. With the surface course removed we will inspect for any weak areas of the pavement that need repair. After repairs are made to the underlying roadway, the contractor will apply a stress absorbing membrane designed to seal the surface and eliminate reflective cracking. Once this is completed, the base course of asphalt will be applied. The contractor will then make repairs and adjustments to all manholes and catch basins in the project area. After all adjustments are completed, the asphalt surface course will be applied.

You will encounter delays in traffic during this project; however, we will work to keep delay times to a minimum. There will be a project inspector on site to make sure the project goes smoothly and to minimize any difficulties you may have while the streets are under construction.

Please contact me at 522-1410 if you have any special access needs or questions.

Sincerely,

Michael H. Gould
Service Director
